

BELLOWS & HOSES

The term "bellows" is used by extension for a flexible bag whose volume can be changed by compression or expansion.

Use of bellows

To be able to choose the correct bellow account must be taken of the following parameters:

1. BELLOW MATERIAL: METAL, RUBBER, PTFE or FABRIC.

- **PTFE Bellow**

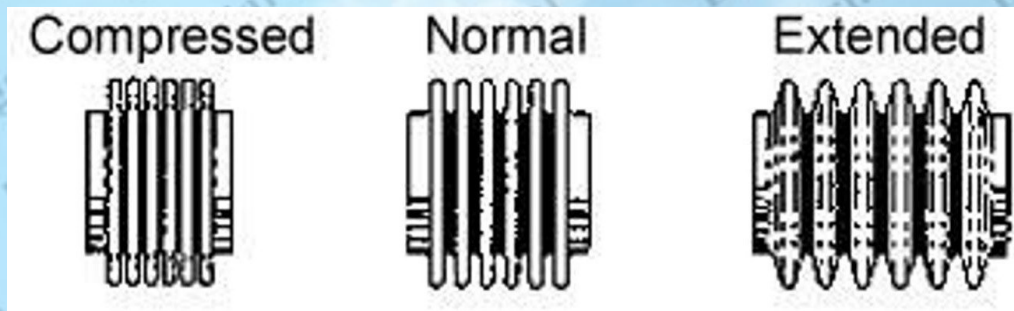

- **Stainless Steel expansion Bellows**

2. BELLOWS TYPE: AXIAL, LATERAL, ANGULAR

3. THE PIPING SYSTEM :

A hose is a flexible hollow tube designed to carry fluids from one location to another.

- **SS flexible Hose with end fittings**

Our knowledge and supply capabilities in this field offer you the opportunity to choose the product to optimally meet your requirements.

If you can't find what you are looking for, or require a bespoke product, please do not hesitate to contact us.

We will manufacture as per the specifications, drawing or sample provided by you .

Customer Service

We are happy to answer any questions that you might have about this product. Please contact us for more information.

Delivery / Shipping

Orders are processed as quickly as possible. Please allow a few days for delivery of your order.
